DETAILED ACTION

Claim Objections

1. Claim 2 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 2 is broader than claim 1 which is directed to novel organosilicon compounds. Claim 2 is directed to linear diorgano-siloxane polymers comprising four possible different claimed units.

Claim Rejections - 35 USC § 112/35 USC § 101

2. Claim 7 provides for the use of organosilicone compounds of claim 1, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 7 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Allowable Subject Matter

3. Claims 1 and 3-6 are allowed.

Art Unit: 1621

4. The following is a statement of reasons for the indication of allowable subject matter:

Applicant has discovered novel and unobvious compounds which are useful in sunscreen compositions. The compounds are not taught or suggested in the prior art of record.
